

Syringe Printing-Assembly Machine

Application

- Luer slip
- Luer lock
- Eccentric luer tip
- With or without needle mounted.

Advantages

- Automatically load material, print and assemble
- Corona treatment to make ink adhesion firmer
- With automatic oil injection
- With safety cover to auto-pause when it is open
- Equipped with video inspection
- Auto-printing, inspection and assembly system are all controlled by PLC and photoelectric inspection.

Technical Specifications

Rated Volt	Power	Rated Air Pressure	Equipment Size	weight
AC220V/50hz	9KW	0.4-0.6MPa	5800*3200*2350mm	2000kg

Production Efficiency (pcs/min)

Model	1ml/2ml	3ml/5ml	30ml
Assembly Speed	180-200	200-220	160-180
