

Automatic Insulin Pen Needle Assembly Machine

Advantages

- Precise servo system
- Rapid and balanced dispensing process
- 99% conformity of product with high quality
- Online CCD checking to ensure the quality
- Stainless steel is used when components are exposed to products.

Key Components and Brands

Servo System	Pneumatic Component	Solenoid Valve	Vision System
Mitsubish	SMC	SMC	Keyence
PLC	Touch Panel	Sensor	Inverter
Omron	XINJIE	Autonic/Automik	Mitsubishi

Technical Specifications

Operator	Rated Volt	Power	Rated Air Pressure	Equipment Size	Production Efficiency	weight
3-5 persons	AC380V/50hz	8KW	0.5-0.7MPa	14m*4m	20,000 pcs/h (30G as the example)	5T
