

Safety Insulin Pen Needle (Dual-safe)

Product Advantages:

- Dual-Safety:
 - * Shield locks automatically at both injection end and insulin pen end after injection to help prevent accidental needle-sticks from both end.
- Convenience:
 - * Visible needle for easy operation during priming and injection;
 - * Less resistance during safety mechanism activation process and needle penetration;
 - * Multi-angle injection.
- Universal Fit:
 - * Fits most popular pens in the market;
 - * Choice of needle length of 4mm, 5mm, 6mm and 8mm;
 - * Choice of needle gauge of 29G, 30G and 31G.

Product Specification:

Needle Size	Needle Length	Package pcs/box	CE Marked
