

Automatic Syringe Barrel Printing Machine

Advantages

- High conformity rate: The rate of conformity can reach 99%.
- Low noise: Smooth gear drive
- Frequency conversion, energy efficient
- Equipped with automatic oil injection: efficient and even-distributed oil injection
- Low consumables: The printing area adopts drum-type silicone rubber wheels and embossing seal to reduce the wastage of ink.
- High production efficiency: Almost at 2.5 times the speed of traditional screen printing

Technical Specifications

Rated Volt	Power	Rated Air Pressure	Equipment Size	weight
AC220V/50hz	5KW	0.4-0.6MPa	3000*2700*2150mm	1060kg

Key Components and Brands

Mainframe Reducer	Solenoid Valve	Photoelectric Switch	Steel of Feeder
Wenlin Enwei	Shako	SICK	Nanjing Tuohai
PLC	Touch Panel	Frequency Converter	Mainframe Motor
Mitsubishi	Mitsubishi	Mitsubishi	Wenlin Enwei

Production Efficiency (pcs/min)

Model	1ml/2ml	3ml/5ml	10ml/20ml	30ml	50ml/60ml
speed	200-220	220-240	180-200	160-180	140-160
